Geography Knowledge Map

The UK

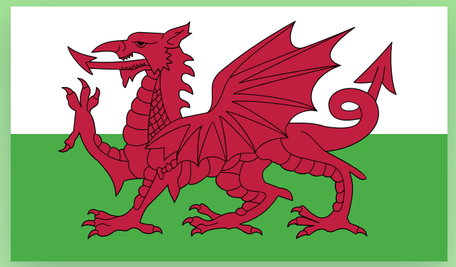

Countries, Capitals and Cities

What makes each country in the UK unique?

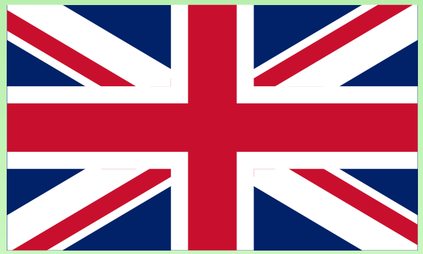

The skills I need:

- Understanding locations of countries, cities and counties
- Making connections between human settlement and physical features
- Collecting, recording and presenting data

Capital City	Where the main government offices, meeting places and important building are.
Country	A large are of land where people live together and follow the same rules.
County	A small section of a country with local services.
Region	An area of land with special features that makes it different from other areas.
United Kingdom	A country made up of four smaller countries: England, Scotland, Wales and Northern Ireland.
