Geography Knowledge Map

How do invisible lines help us understand our world?

Countries, Capitals and Cities

The skills I need:

- Identify latitude and longitude references
- Interpret maps
- Make connections between physical and human geography
- Use coordinates
- Compare and contrast locations

Arctic	Located in the northern hemisphere.
Antarctic	Located in the southern hemisphere.
Coordinate	Letter and numbers used to find an exact location on a map.
Equator	Imaginary line around the centre of the Earth, dividing the north and south hemispheres.
Hemisphere	The area above and below the equator. Above - northern hemisphere, below - southern hemisphere.
Latitude	Lines running vertically down the Earth, measured in degrees north or south of the equator.
Longitude	Imaginary lines running around the earth, dividing it into 24 time zones.
Prime Meridian	Imaginary line used as a basis for time zones, dividing the earth into the eastern and western hemisphere.
Tropic	Imaginary lines which mark the boundaries of the tropics. Tropic of Cancer 23 degrees above the equator, Tropic of Cancer 23 degrees below the equator.
