Geography Knowledge Map

The Norfolk Broads

Tourism

Rivers, people and wildlife: What makes the Norfolk Broads special?

The skills I need:

- Asking questions and making hypothesis
- Observing and measuring
- Analysing, interpreting and evaluating information

Broads	A network or rivers and lakes in East Anglia.
Drainage	Removing water from a specific area.
Erosion	The process where the Earth's surface is worn away.
Estuary	Where the river meets the ocean.
Fauna	Animal life in a specific region.
Flaura	Plant life in a specific region.
Flood Plain	Area of land next to water which floods when water levels rise.
Peat Extraction	Removing peat from wetland areas.
Pollution	When harmful materials enter the environment.
