Geography Knowledge Map

World Trade

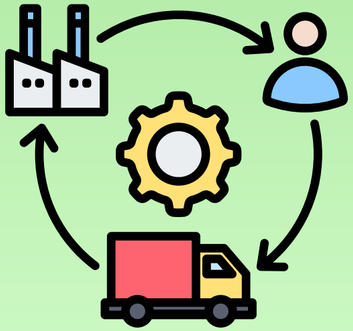

How does buying different products affect people in other countries?

The skills I need:

- Collecting and recording data
- Analysing patterns, interpreting data and asking questions
- Evaluating perspectives and ethical considerations
- Applying knowledge

Export	Selling goods from one country to another.
Fairtrade	Making sure workers in developing countries get a fair price and have good working conditions.
Global	Buying and selling around the world.
Import	Buying good from another country.
Manufactured	Goods made by machines.
Raw Materials	Natural materials before they are made into goods.
Supply Chain	The entire journey of goods from where it starts to where it bought.
Trade	The buying and selling of goods and services.
