Art and Design Knowledge Map

Scultpure and 3D Mega Materials

How can artists turn everyday materials into extraordinary sculptures?

The skills I need:

- Generating ideas
- Making 3D cnstructions with effective joining techniques
- Examining form, texture, scale and materials
- Experimenting with different techniques

Ceramics	Objects made from clay that are baked in a hot
Organic	Irregular natural shapes.
Recycled	Waste that is reused in a new way.
Sculpture	Art which is in three dimensions.
Surface	The outside layer of something.
Three-dimensional	Shapes with three dimensions such as width,
Two-dimensional	Shapes with two dimensions such as width
Weaving	Interlacing threads to create a layer.
