Design and Technology Knowledge Map

Electrical Poster

How can we use electrical circuits to make an effective information poster?

The skills I need:

- Designing purposeful products
- Managing time effectively
- Troubleshooting electrical systems
- Evaluating designs

Circuit	The path that electricity can flow round.
Component	Individual parts of a circuit, e.g. bulb, wire, switch.
Feedback	Information to share what works well and suggest how something can be improved.
Information	Facts we can learn or research.
Information Design	Facts displayed in an appealing and understandable way.
Public	People in our community.
