Computing Knowledge Map

Creating Media

How can I use a computer system to capture, edit and manipulate media?

The skills I need:

- Knowing what to do if I see something onlline that makes me feel uncomfortable
- Exploring a variety of filming techniques
- Using a storyboard for planning
- Editing and manipulating my work

Capture	To record something or someone.
Content	Moving images, usually with sound.
Editing Software	A program that lets you edit, mix and add effects to your work.
Manipulate	Adding, changing or removing parts of your work to achieve a final goal.
Media	The tools used to store and present information.
Microphone	Input device that turns sound waves into electrical signals.
