Stop-Frame Animation

How can I make a picture move to tell a story?

The skills I need:

- creating an effective flip book
- working with precision
- creating a storyboard
- developing an animation that is achieveable on screen
- evaluating and improving my work

Animation	A way of making pictures or objects look as if they are moving.
Animator	An artist who creates pictures and makes them look as if they move.
Frame	A single image within a sequence.
Onion-skinning	Being able to view mutiple frames at once - it helps you to make smooth changes.
Stop-frame	Slight changes are made between frames so when they play in sequence it looks as if there is movement.
Storyboard	A tool used to plan and structure a story.
